CONNECT SYSTEM - DMX / 230-240V AC

890-9545 Output cable with IP68 DMX male connector / IP20 DMX female connector

DMX terminal

MALE CONNECTOR

DESCRIPTION

Wiring system with 230 V/DMX "snap-on" waterproof connectors, 100% reliable.

Products affected: X-LINE QUATTRO, POWERFLOOD 9 & 18, X-LINE 3 RGB DMX.

ADVANTAGES

Connections are tight and allow for quick installation.

The shape of the coupling system enables blind connection. In dark conditions, the keys enable easy connection procedures to avoid damage.

FLUX has software that generates wiring diagrams which include all lighting required for installation.

IP68
